

PRESERVE MARBLETOWN

Preserve Marbletown would like to thank the nearly 300 people who came to the Community Meeting on Saturday, August 25 to discuss the proposed Marbletown Green real estate development that would replace the 200 year old Stone Ridge Orchard. We applaud this extraordinary community participation.

Although the proponents of Marbletown Green have now stated that they are backing away from the proposed development because of obvious community opposition, they also have stated that they may revive it after the upcoming elections.

If the proposed development has been permanently abandoned, we commend all those involved with the project for responding to the community's concerns and Preserve Marbletown will now make every effort to work with the owners and the town to preserve the orchard.

But because the Marbletown Green project may yet be revived, it remains critically important for those who oppose the project to continue to make that opposition known to the community, including our town officials, between now and the elections this fall.

If you would like to sign our petition in opposition, put up a lawn sign or learn more about Preserve Marbletown, please contact us or visit our website, preservemarbletown.org.
